House Bill 815, passed by the Idaho Legislature and signed into law on March 24, 2004, amends the Idaho Controlled Substances Act to require reporting by select employers of employment termination of certain health care providers for validated or suspected misappropriation or adulteration of controlled substances.

In addition, the law requires that prior to hiring a new employee, prospective employers of certain health care providers make inquiry of the licensing board if a notice of termination has been filed.

**What is HB 815?**

Within 30 days of the termination of employment, the employer must furnish written notice of the termination of certain health care providers for reasons of controlled substance adulteration or misappropriation to the health care provider’s licensing board. The notice of termination must include a description of the controlled substance adulteration or misappropriation involved in the termination of employment.

**Who Must Be Reported?**

A health care provider is any licensed person who is allowed to dispense or administer controlled substances and who is employed by or seeking employment in a hospital, nursing home, ICFMR or physician office, to include:
