ORDER REVOKING LICENSE

The above entitled matter having been submitted to the Board of Nursing, State of Idaho, and the matters therein being fully considered by the Board of Nursing, as a result thereof, the Board of Nursing makes the following Findings of Fact and Conclusions of Law:

FINDINGS OF FACT

Based upon information in the Board of Nursing files, the Board finds that:

1. The licensee was issued a license to practice as a professional nurse on September 11, 1978.

2. A Petition for Revocation or Suspension of License was initiated by the Board of Nursing and was sent by Certified Mail to the licensee's last known address on February 24, 1987. The Certified Mail was signed for on February 26, 1987.

3. The licensee did not return the Answer to Petition and did not request a hearing.

4. During 1986, up to September 5, 1986, while employed as a registered nurse at Saint Alphonsus Regional Medical Center, Boise, Idaho, the licensee diverted Controlled Substance medication, Demerol, in excess of 540 mg for personal use without authorization.

5. On about October 16, 1986, the licensee signed a Contract with the Board of Nursing for temporary voluntary surrender of licensure after entering an out-patient treatment program. The Contract specified that the licensee would comply with all recommendations as specified by the Board of Nursing's Advisory Committee and that the Board could file a petition for formal disciplinary action at any time prior to the return of the voluntarily surrendered license if there was not documentation of satisfactory progress.

6. Reports submitted confirm the last attendance at a Narcotics Anonymous/Alcoholics Anonymous meeting was on December 12, 1986; the last counseling report was received on January 2, 1987; the last random urine drug screen report was received on January 8, 1987, for a specimen that was collected on December 23, 1986.
7. The Board of Nursing's Advisory Committee recommended that she attend Alcoholics Anonymous/Narcotics Anonymous meetings twice a week and document attendance, continue in an outpatient treatment program with counseling a minimum of every two weeks and request that reports of progress be submitted monthly, and obtain a supervised random urine drug screen monthly and request that reports be submitted to the Board of Nursing.

CONCLUSIONS OF LAW

Based upon the foregoing Findings of Fact, the Board of Nursing makes the following Conclusions of Law:

1. That pursuant to the Nursing Practice Act, IDAHO CODE, Title 54, Chapter 14, the Board of Nursing has jurisdiction over this matter.

2. That the matters contained in Finding of Fact, number 4, constitute conduct in violation of Chapter 14, Title 54, IDAHO CODE, Section 54-1412, (a), (7), and (8).

That the acts cited in Findings of Facts numbers 4, 5, and 6, constitutes sufficient cause pursuant to Chapter 14, Title 54, IDAHO CODE (Section 54-1412) and Board of Nursing Rules and Regulations, (Title 02., Chapter D., Section 11., f., j.(ii, iv, and v), Section 25., e., and Title 04., Chapter A., Section 1., k., l., and n.) to revoke license number N-13305 issued to Nancy Kay Reid to practice professional nursing in the State of Idaho.
