To Whom It May Concern:

Bonnie Schuler was hired by this facility on 12/31/2004, as an LPN. Her Idaho nursing license number is PN-11878.

On 12/15/2004, Bonnie called her supervisor, and stated she would not be in to work that night, because she was in the Spokane County Jail, having been caught trying to smuggle heroin into a Washington state correctional facility, to her husband, who is an inmate there.

Bonnie was taken off the nursing schedule, at that time, and worked no further shifts. On 1/3/2005, an investigator from the Idaho State Police came into the facility, and told us that Bonnie had admitted to him, that she has, while at work, administered half doses of narcotic pain medication, and taken the rest home with her. It was implied this was also for her husband. The narcotic count has been correct in the facility, and no one had suspected this nurse of narcotic diversion.

If there is more I need to do in reporting this nurse, let me know, and I will assist in any way I can.

Dear Mr. Olsen:

I am writing this letter in regards to the letter you wrote me concerning investigating my husband. I have enclosed material that I hope will clarify this matter.

I was arrested in Dec. 2004 for trying to bring contraband to my husband who was incarcerated. I have went through the court system. My charges do not keep me from working as a LPN. I am no longer in protection. I am paying my fines & going to counseling. If you have any questions about this matter or would like more information, I will do everything I can to assist you.

I have enclosed a copy of the letter I received from the Idaho Board of Nursing. It states that I admitted to Detective Jerry Morgan that I was directing morphine I giving it to my husband. I did not do that nor did I say I did. I have been in contact with Detective Morgan. He agrees that I did not say that either. Enclosed is a letter he signed stating that I did not say that. His address, phone & fax # are enclosed in that letter so you may personally get in touch with him if you like.

Detective Morgan from Idaho, along with Detective Jerry Schumaker from the Washington police, questioned me while I was in jail. Detective Morgan asked if he could search my home while I was in jail. I gave him permission. He then asked me if he would find anything there. I said no but that being a nurse there would be medical items that often I put things in my pockets at work. They ended up coming home with me.
Items such as tape, bandaids, fingersticks, normal saline, alcohol wipes, skin prep, etc. Because I was scared, I was wrecking my brain trying to remember everything I'd ever carried home in my pockets inadvertently. The reason morphine even came up is because at this facility (Pinewood) we did not count the empty morphine vials at drug count at the end of shift. They were just thrown into the sharps container. I know that if I am at my cart drawing up medications and I get called away (especially in case of an emergency) I will throw things into my pockets, lock my cart, or where I am needed that way no one going by will find drugs on the top of the cart. When Detective Morgan asked me if he would find anything, I was wondering if I'd done that very thing. I then tried to explain to him that it would have been an empty vial, but empty vials have a few drops of morphine in them. Well he didn't find any vials, he agrees I never said I diverted morphine. What I did was never explain to a non-medical person who doesn't even know what a vial is because I was scared stuff.

I have also included a page from my unemployment determination. It states what Pinewood stated about my no longer working there versus what I said happened. There is a slight difference of opinion.

Here are a few people you might like to contact about me. I believe they will give you an unembezzled opinion.

Interview with Bonnie Schuler, respondent

The complaint, investigation, and discipline processes were explained to Bonnie. Bonnie admitted she had tried to smuggle heroin into the WA State Correctional Facility for her husband who is an inmate. She said she was arrested by the Airway Heights Police and was held in the Spokane County Jail for three days (12/12/04-12/15/04) while they investigated the case.

She said her husband asked her to bring something in to him, but she didn’t know what it was. “I didn’t know what was in the little balloons.” “I was a dumb dumby.”

Bonnie said she has not been charged and doesn’t believe she will be. Bonnie said she would fax a copy of her arrest record to the BON.

Dear Ms. Cuffe:

Your application for licensure by endorsement was reviewed by the Idaho State Board of Nursing during its May 18, 2000 meeting. As you were advised, by letter of March 29, 2000, conviction of an offense involving moral turpitude as well as any violation of the standards of conduct and practice as may be adopted by the Board constitutes grounds for the denial of an application for licensure. Section 54-1413 (1) (c) and (g), Idaho Code.

During its meeting, the Board was presented with information received from Mr. Steven Frampton on your behalf relative to Kootenai County Case No. CR 99-9926.

Based on its review of this information, the members of the Board voted to approve your application for licensure by endorsement and issue a renewable license to practice as a licensed practical nurse in Idaho. Your license is enclosed with this letter.

Sincerely,

SANDRA EVANS, MAEd, RN

Re: Boone-Goffe

Dear Sandra Evans and members of the Board,

I would like to express Boone's willingness to cooperate with any inquiry or investigation the board deems necessary to resolve a pending matter.

Before the board makes a determination regarding the status of Boone's application for discharge, I would request that the board review the attached copies of letters from the case worker for the Department of Health and Welfare, Family and Children's Services and the Guardian Ad Litem, First Judicial District Court, State of Idaho. This was the actual case worker who dealt with the above-mentioned cases and the court advocate appeared in First Judicial District Court. A copy of the letter is a letter signed by everyone at our current employment at Goodwill Industries of Idaho, Inc. Also attached is a copy of the Court's Withholding Judgment in CR-99-999.

As you can see from the letter, that Boone really had nothing to do with the above-entitled case. However, that adult children and their kids have had some serious legal problems, and he has to lend responsibility to raise her grandchildren, however the happened to walk into her.
Letter to Board of Nursing  
May 3, 2000  
Page 2

children's apartment, when the police arrived and got roped into a situation she had no part of. Bonnie had been out of the area for several days and just returned when she walked into a situation where the police were called against Bonnie's children for the way they raised their kids. Bonnie had no knowledge of any situation where the children would be endangered. Even in the slightest way. Bonnie has done nothing but work very hard to make sure her grand-children are adequately fed and cared for. The problem was that Bonnie was not there.

Finally, Bonnie was never convicted of any crime. A nolle prosequi is by its very nature, not a conviction. The court willholds entry of conviction pending a probationary period. In the case, probation required that she not violate criminal laws and cooperate with Health and Welfare. If she were to violate this probation, the worst-case scenario would be a misdemeanor conviction. The reason Bonnie decided to do things this way instead of going through a possible trial, was to avoid trial publicity and paying substantial attorney fees. This is sometimes referred to as the "law of diminishing returns." Even if you win, you lose. In this case, she has not been convicted of anything to a child nor an adult.

The attached letters show nothing but that Bonnie Collee is a person of the utmost moral character and completely cooperative with the authorities charged by law to protect our children. She did not hurt anyone nor has she been convicted of any such thing.

Should you have any questions or concerns regarding this matter, do not hesitate to contact me.

Sincerely,

Subject:  Bonnie Lou Cuffe
Date:     April 21, 2000

Dear Ms. Evans:

I am the case manager for Family and Children's Services that is responsible for the child protective case associated with the legal case CR-99-9926 referenced in your letter dated 3/29/2000.

Bonnie Cuffe was identified as a member of the household and was included in the criminal case, as the identified home was leased/rented in Bonnie's name. Family and Children's Services had questions regarding law enforcement's inclusion of Bonnie in the charges. Bonnie is not included as a party in the Child Protective case, as she was not the responsible caretaker(s) of the children. Bonnie's role in the family was to provide shelter and food. She was the primary financial support of the family of nine members, in which she worked night shifts and slept during the day. Other members of the household were the responsible parties for the care of the children and are included in our child protective case. Throughout the investigation, Bonnie was cooperative, and she has continued to stay in contact with both myself and the Court Appointed Special Advocate (CASA) for the children, Marciea Brock.

Due to confidentiality, I am not allowed to release specific information about the child protective case, but I did want to convey to you my concern over the potential loss of Bonnie's licensure as a practical nurse. Bonnie may have a conviction of an offense involving misdemeanor injury to a child, but in no way were the children harmed as a result of Bonnie's care. Throughout our investigation, Bonnie was found to be a person who worked as a dedicated nurse, providing appropriate care for those in her charge. Bonnie was not able to carry the load of full time employment, keeping a home inhabited by other adults and children and get any sleep so she could maintain her own health and well-being.

I would ask that you reconsider and grant Bonnie her practical nursing license. Please feel free to contact me if you have any further questions. Thank you for your time and consideration.

Sincerely,

Karen E. Kerbs, Case Manager

RE: Bonnie Cuffe

CONFIDENTIAL

Idaho Board of Nursing
Boise, Idaho

To Whom it May Concern:

This letter is to address the Idaho Board of Nursing and their inquiry of Nurse Bonnie Cuffe on the grounds of moral turpitude.

In my investigation as the Court Appointed Special Advocate, 1st Judicial District, my information brought forth during the state's inquiry, presented nothing conclusive to indicate Ms. Cuffe a threat or of immoral character. Ms. Cuffe was cooperative and all information obtained was truthful and verifiable.

In my further investigation of Ms. Cuffe, it was concluded she has performed her nursing duties in a professional manner. Her personal manner of conduct has neither suggested immoral or questionable character at this time. In my opinion as a prior nurse, current teacher and Court Appointed Special Advocate it would be a great loss to the nursing profession to deny Ms. Cuffe the privilege to continue performing her duties as a professional nurse.

To the Idaho State Board of Nursing,

This is in regards to Bonnie Cuffe and her getting her nursing license reinstated.

I was a neighbor and friend during the time that Bonnie lived with her daughter and family here in Post Falls. I would like you to know that Bonnie is kind, helpful, and full of concern. Personally she is neat, clean, respectful, and prompt. She made a good neighbor. The community all liked and supported her, and would have enjoyed having her continue to live here as she is an asset to the neighborhood. My mother was a nurse and I compare Bonnie with her quite favorably. Bonnie is a good person and would continue to be a good nurse. She continues to be a good friend of me and my family.

If you would like to speak with me or ask me any questions, please feel free to call me at 208-777-1048. Thank you for your time and consideration.
