RE: Rose Marie Parker White

Dear Ms. Evans,

On 3/21, we were notified of a (+) UA result for Cannibinoids from Ms. White’s test on 3/15/01. Dr. Eschen, the Medical Review Officer contacted Ms. White to ask her about the test. She was very upset and adamantly denied any use. A re-test was done per her request on the specimen and the re-test also came back positive.

Ms. White did have a follow-up test done on 4/2, which came back negative. However, according to our Medical Director, this does not nullify the results from the test on 3/15. Therefore, since Ms. White is a Board of Nursing referral in the PRN program, we feel that it is our obligation to notify you of the (+) result.

We will continue to monitor Ms. White until we receive further instruction from you. Enclosed is a copy of Ms. White’s PRN contract and the (+) UA result. If you have further questions or concerns, please feel free to contact us.

Sincerely,

RE: Rose Marie White (Parker)

Dear Ms. Evans,

On July 25, 2001, we notified you that Rose Marie White (Parker) was out of compliance with her PRN contract, and that part of that non-compliance was in regards to a positive test that she received on July 11.

When the positive test of July 11 was originally investigated by the Medical Review Officer, he stated that Ms. White was requesting that the specimen be re-tested at a different laboratory. However, on 8/03/01, we received notification from the Medical Review Officer that he had tried on multiple occasions to reach Ms. White in order to receive authorization from her to move ahead with the re-test. Because Ms. White has not responded to attempts by the Medical Review Officer to authorize the re-test, the original failure of the test by the Medical Review Officer is legitimate.

With this new information, we are informing you that Ms. White's urinalysis test of July 11th has been confirmed positive and failed by the Medical Review Officer. Copies of the positive test, the Medical Review Officer's original confirmation, and his notification of being unable to reach Ms. White are enclosed with this letter.

If you have any questions or concerns, feel free to contact me or the PRN office.

Sincerely,

RE:  Rose Marie White (Parker)

Dear Ms. Evans,

This letter is being written to inform you that Ms. White is out of compliance with her PRN contract, and we are not advocating for her at this time.

As part of her contract, Ms. White is required to provide documentation that she is attending the number of meetings required by her PRN contract. However, Ms. White’s records do not reflect that she has been attending enough meetings to satisfy the requirements of her contract. The PRN office has attempted to contact Ms. White numerous times by phone to discuss the situation with her, but has not been able to contact her until just recently. In a phone conversation with Theresa on July 20, Ms. White stated that she has recently moved and has been traveling two hours one-way to attend an AA meeting once per week. However, Ms. White’s contract requires 3-4 meetings per week. The PRN office was never notified by Ms. White that she was having difficulty attending meetings.

In addition, on July 18, we were notified that Ms. White tested positive for Demerol at a level of 547. This test was confirmed positive and failed by the Medical Review Officer on July 24. At this point, Ms. White has requested a re-test of the specimen, and we will inform you of the results of this re-test when we receive them.

For these reasons, we are notifying you that Ms. White is out of compliance with her PRN contract. We do not have supportive documentation to advocate that she is working a recovery program. Though we are not advocating for Ms. White at this time, we will continue to monitor her until further notified by the Board of Nursing.

If you have any questions or concerns, feel free to contact me or the PRN office.

Sincerely,
